AMERICAN FYRE DESIGNS™

Outdoor Products Collection

Homeowners all over the country have come to realize the allure of fire in their backyards. Fire brings warmth, glow and serenity, encouraging us to relax and unwind. An American Fyre Designs™ exterior fire feature will anchor your outdoor living space and turn your patio into an outdoor sanctuary inviting conversation that flows well into the night – even when there is chill in the air.

From fireplaces perfect for cuddling up under the stars, to fire tables ideal for entertaining, to fire falls that combine the charm of fire with running water, each product is expertly crafted from innovative glass fiber reinforced concrete (GFRC). GFRC derives its strength from a dosage of alkali-resistant glass fiber and acrylic polymer that results in durable concrete to withstand the outdoor elements. Modularly constructed as easy-to-assemble components, American Fyre Designs™ products fit easily into most backyards, making installation fast and simple.

American Fyre Designs™ products are available in a variety of styles, colors and textures to complement any décor. Warm your outdoor living area with American Fyre Designs™.

Fireplaces

Pictured above: Grand Cordova Fireplace (882-35-H-CB-xxC) in Café Blanco Finish with Charred Oak log set (CHDG45-24)

Create an enticing outdoor setting with the American Fyre Designs™ Outdoor Fireplaces. Expertly handcrafted from innovative glass fiber reinforced concrete (GFRC), a variety of styles, finishes and options are available to find the right fireplace for your setting.

The Grand Series Fireplaces incorporate wall extension panels to create a more impressive design while keeping the same style and look of the fireplace. Wall extension panels expand upon the body of the Fireplace to create many new decorating opportunities while also providing a beautiful separation to the world behind the fireplace.

Most fireplaces are available in vent-free versions which permit you to locate your fireplace in a lanai or other covered outdoor area.

Feature Highlights

- Modularly constructed as easy-to-assemble components
- Exterior may be recessed to accommodate field cladding in tile, stone or other veneer
- Most fireplaces available as Vented or Vent-Free
- All Vent-Free fireplaces are blocked at the top and throat of the firebox
- All Fireplaces include herringbone firebox liners

Fire Pits

Pictured above: Contractor's Model Firepit (685-CB-11-V2XC) in Café Blanco Finish w/stone veneer

Our artistically-designed fire pits add style and design to the classic outdoor fire pit. The Chiseled Fire Pit has a rough hewn concrete exterior and smooth rim around the top. The El Dorado Fire Pit has a smooth concrete exterior and smooth rim around the top. The Contractor's Model comes as a blank slate for you to customize and design your way by adding your own stone, tile or other veneer. Made from glass fiber reinforced concrete (GFRC), these fire pits come in a variety of different colors. Fuel options include Natural Gas or Propane.

Protective Covers

GFRC Covers

Manufactured out of the same Glass Fiber Reinforced Concrete (GFRC), these protective covers are designed to fit over the firetable opening protecting the burner assembly against wind and rain. They also provide additional table surface when the burner is not in use.

Fabric Covers

Manufactured with a heavy duty, multi-layer PVC exterior, these covers are custom fit for selected Firetables, Fire Bowls, Fire Urns and the Nest Lantern. The black PVC material has been tested and proven for color-fastness.
